Internships at Flatirons Neighborhood Farm

A farm intern commits to a three-month hands-on learning experience on our urban farm. Interns will gain sustainable agricultural skills and the opportunity to support a new nonprofit organization in our community by bringing fresh, organic produce into our food system, and will receive plenty of fresh, organically cultivated veggies to take home!

Job Duties

- Transitioning lawns to gardens
- Planting, watering, weeding
- Harvesting, and washing and distributing produce to our CSA members and our restaurant client!
- Opportunity to attend our monthly sustainable skill workshops (our first workshop, "Transitioning a Lawn into a Garden" will be May 15th from 10-12), and will be given credit for attending these hands-on classes
- Help develop new educational programming and other special projects based on Intern's interests
- Learn about how to start and run a non-profit

Internship Commitment

- May 10th to mid-August, 2010
- 10 hours/week, specifically on Thursday mornings for CSA share harvest
- Unpaid

Farm labor is fun and educational; however it is physically intensive labor. Please take into consideration the physical demands of this commitment when applying.
